

Youth Group Report

During the second half of 2019, the youth group had several sessions with various topics. We had a science night, baking night and also a movie night. Each session began with reflection on topics to help the youth become aware of the different ways that God is present in our lives.

The year ended with a very successful BBQ at Wenderholme. It was a fun time where we celebrated what we've achieved during the year and became closer to one another.

During the start of 2020, we also had several successful sessions. We started the year with an international night, where everyone brought some food that represent their culture and the stories behind them. It was a wonderful session where we praised God for the diversity we have in our parish.

We also had a session at St Francis, where the youth was introduced to how the altar is set up and the importance of it. This was a very educational session and was helpful in allowing the youth to understand more about a liturgical mass.

We would like to thank Tania Alofaki for her guidance, leadership and dedication in starting and supporting the youth group.

Unfortunately, COVID-19 and the lockdowns caused a halt in our programme and we haven't had a session since then.

Currently we are looking to build a team to restart and lead the youth group. To do that we urgently need some volunteers who have passion in working with our youth. This team will be involved with planning activities and reflections for the group. If you are interested, please contact Flavia Widiанти or Kathy Ellery.
